Málaga

PROFILE

Software Engineering graduate with 1 year of front-end web development experience. Passionate about crafting intuitive and efficient user interfaces that deliver exceptional experiences. Constantly learning new technologies and refining my skills.

EXPERIENCE

SOFTWARE ENGINEER FRONTEND • Feb 2023 - Mar 2024

Babel • babelgroup.com

Project for Banco Santander.

- Built **micro-frontend** web applications for the **banking** sector using **Angular**, **React**, **TypeScript**, and **SASS**.
- Maintained and evolved a **Storybook** component catalog, ensuring **visual** and **functional consistency** across applications.
- Implemented backend services with **Node.js** and **NestJS** to support frontend capabilities.
- Worked in an **agile** environment (**Scrum/Kanban**), contributing to **daily standups**, **sprint planning**, and **code reviews**.
- Authored **unit tests** with **Jest** to guarantee software quality and stability.
- Used **Git** and **GitHub** for **source control** and **cross-team collaboration**.
